

BERNER CONSTRUCTION, INCORPORATED PROJECT SUMMARY

Project Title: Watson Johnson Landfill Site Improvements

Location: Quakertown, Bucks County, PA.

Scope: Provide labor, materials, and equipment for the construction of an Access Road to Allow Heavy Equipment Access to the Site

Berner Construction, Inc. was awarded a contract from Tetra Tech NUS, Inc. for the clearing and construction of an access road that would allow heavy equipment and drill rig travel for investigative measures at the site. The access road intersected Richlandtown Pike near Quakertown and ran adjacent to the landfill property to provide suitable access.

The project included clearing and grading, construction of 2,400 linear feet of access road, and construction of three work pads to allow future utilization by the drilling operation. The access road included the furnishing and placement of 1500 tons of stone and 3,000 square yards (sy) of geotextile.
